

Treasury Curve Integrate

Take Charge of Your Treasury Data

Treasury professionals rely on a lot of data. You should be able to get to it where you want, when you want it. But that's hard when you manage a vast array of financial data from multiple sources – banks, asset managers, and more. Disparate data formats can create inefficiencies, complicate reporting, and slow down decision-making. Treasury Curve Integrate provides a powerful solution that aggregates all your financial data, standardizes it into a consistent format, and allows easy API exports. With Treasury Curve Integrate, you gain full control over your data, enabling you to optimize reporting, ensure compliance, and enhance integration with your existing systems.

Data-Driven Treasury Efficiency

Treasury Curve Integrate offers treasurers the tools they need to manage their data with precision and efficiency. With features like seamless API exports and audit-ready archiving, you can ensure that your data is always in the right format and easily accessible for all your treasury needs.

Data Aggregation

Consolidate data from banks, asset managers, and other financial sources into one unified platform.

Data Standardization

Automatically convert disparate data formats into a single, consistent format for easier analysis, reporting, and uploads.

API Exports

Export your standardized data effortlessly via API to integrate with your ERP, enterprise software, or other financial systems or processes.

Audit-ready Archiving

Standardize your data in a single format to simplify the process of archiving and ensure seamless compliance with audit and regulatory requirements.

Customizable Reporting

Generate detailed reports tailored to your organization's needs, providing insights into cash flow, reconciliation status, and financial forecasts.

Data Integration

Aggregate and standardize all your data from disparate sources and use our APIs to export data and forecasts to existing ERP and financial systems effortlessly.

Data Accuracy & Reliability

Rely on our platform's data aggregation to ensure that your financial information is accurate and up to date, reducing the risk of discrepancies.

Powerful Benefits

Whether you are a CFO, Treasurer or Treasury Practitioner, Treasury Curve Integrate delivers critical advantages that empower you to excel in your role.

- ✔ **Data Control & Flexibility**
Gain full control over your financial data with the flexibility to use it as needed – whether for reporting, compliance, or integration with other systems.
- ✔ **Enhanced Efficiency**
Eliminate the manual process of rekeying or reformatting data, reducing errors and saving valuable time for your treasury team.
- ✔ **Improved Decision-making**
With consistent, accurate data at your disposal, make informed decisions faster and with greater confidence.
- ✔ **Streamlined Compliance**
Easily meet regulatory requirements with audit-ready data that's always standardized and accessible. Treasury Curve aggregates data and exports data in a SOC-compliant way.
- ✔ **Seamless Integration**
Use our APIs to effortlessly export your financial data to your existing systems, enhancing the functionality of your ERP, payment solutions, and more.

Not FDIC Insured | Not Bank Guaranteed | May Lose Value

Investments in money market funds are not guaranteed or insured by the Federal Deposit Insurance Corporation or any other government agency. While money market funds seek to maintain the value of your investment at \$1.00 per share, it is possible to lose money by investing in these funds. The prospectus is available via the link to the asset manager on the Research page in the column entitled Fund Company URL. The prospectus contains more complete information about each Fund including distribution fees and expenses. An investor should read the prospectus carefully before investing or sending money.
